

Write your Next Thesis in L^AT_EX

International Webinar

JADEHOCHSCHULE
Wilhelmshaven Oldenburg Elsfleth

Objective. *The course provides basic skills for the creation of technical and scientific documents with the L^AT_EX typesetting programming language. After attending the course, the participants can create tables, insert images, create plots from data, and use the most common templates and packages.*

Invited Instructors

- ▷ Dr Gerardo Chávez-Campos
- ▷ Dr Gabor Kertesz
- ▷ Dr Kai Meck
- ▷ Dr Matthias Haupt

Venue

The event takes place in cooperation with *German, Mexican and Hungarian* partners. For this reason, the course language is **English** and the events take place at 18:00 UTC - this is around noon in Mexico and early evening in Europe.

Contents

- ▷ Brief introduction to L^AT_EX and basic compilation
- ▷ Document Classes and Sectional Units
- ▷ Equations, Tables, and Figures
- ▷ Plots with PGFplots package
- ▷ Including References with BIB_TE_X
